

## Transmittal Notice

September 21, 2023

Dear Jerry Tiehm,

We at Chicago Botanic Garden are transferring these materials to RENO to serve as vouchers for the native seed conservation and development project.

This package contains the specimens noted on the following page, and labels for them enclosed in the sheets. The material in here is intended to represent a single set from collections made in quadruplicate. These materials were collected under the auspices of the US Department of Interiors Bureau of Land Management, unless noted otherwise.

If you are interested, we are able to share digital copies of relevant collection data to assist digitization endeavors.

Thank you, we appreciate both your and your staffs assistance in this matter. Please do not hesitate to reach out to me with any questions.

Sincerely,

Reed Clark Benkendorf
